STUDIES

IDE-JETRO

Economic Research Institute
for ASEAN and East Asia

Outcome Dissemination Seminar:

"Innovation along the Value Chain in East Asia:

Empirical Evidences with an Application to Aeronautical Manufacturing Industry in India"

The Institute of Developing Economies, Japan External Trade Organization (IDE-JETRO), the Centre for Development Studies (CDS), and the Economic Research Institute for ASEAN and East Asia (ERIA) are presenting an Outcome Dissemination Seminar entitled: "Innovation along the Value Chain in South Asia: Empirical Evidences with an Application to Aeronautical Engineering Industry in India", to be held in Trivandrum, India on Wednesday March 14, 2018. The seminar is based on ERIA and IDE-JETRO's collaborative research on innovation and production networks in East Asia including non-R&D innovations in the manufacturing and upgrading of resource-based industries. The objective of this seminar is to familiarize policy makers, researchers and businesspersons in India with the outcome of the research in East Asia and policy recommendations and to break them down into more practical policies. The organizers expect that this seminar will enhance the understanding and policy views about the current situation of product development and process improvement along the value chains in East Asia.

Date and Time

March 14, 2018 (Wednesday) 9:00-13:00

Venue:

Joan Robinson Hall, Centre for Development Studies
(Prasanth Nagar, Medical College P.O, Ulloor, Trivandrum, Kerala 695011, India)

Program:

9:00 Opening Session:

Opening Addresses: Sunil Mani (Professor and Director, CDS)

9:10

Session 1 : Innovation and Global Value Chains in East Asia

Speaker : Patarapong Intarakumnerd (Professor, GRIPS)

10:00-10:10

Tea break

10:10

Session 2 : Innovation and Technology Transfers along the Production Chains:
Direct Evidences from Upstream and Downstream Network Data

Speaker : Tomohiro Machikita (Research Fellow, IDE-JETRO)

11:00

Session 3 : Innovation and Global Value Chains of Aeronautical manufacturing Industry in India

Speaker : Sunil Mani (Professor and Director, CDS)

11:50-12:00

Tea break

12:00

Roundtable discussion, Policy Dialogue, and Q&A

Moderator : Dr Suresh Das,
Executive Vice President, Kerala State Council for Science, Technology and
Environment and Principal Secretary, Science and Technology Département
Government of Kerala.

Speaker : Patarapong Interakumnerd (Professor, GRIPS)

Speaker : Tomohiro Machikita (Research Fellow, IDE-JETRO)

Speaker : Sunil Mani (Professor and Director, CDS)

12:50

Closing remarks: Sunil Mani (Professor and Director, CDS)

13:00

Adjourn

Language: English
