**Selection of candidates is based on their percentile score in the CUET exam.**

Percentile score =  $100 * (\text{number of candidates scored less than or equal} / \text{total number of candidates who appeared for that subject})$

For the same percentile across candidates, i.e if we have tie, the following tie breaking rule (as stated in the CDS MA prospectus, published on 7<sup>th</sup> May 2026 on CDS website) has been followed:

If there is a tie between candidates, and all such candidates had economics in their undergraduate, then preference will be given to the student with highest undergraduate economics marks. In case of unavailability of any undergraduate score, we will compare the marks at 10+2 level.

If there is a tie between candidates and some of them had economics in their undergraduate, while others did not have, then preference will be given to the undergraduate economics candidate.

If the tie is between candidates such that none of them had economics as their undergraduate subject, then we will compare their 10+2 marks.
